- SUPER 60
- BTE Family

Rights of Use:
- Audina Company and Product Logos
- Licensed Product Photos

I am pleased to introduce the new brand identity for Audina® Hearing Instruments, Inc. As we continue to develop as a “world-wide” organization; it is fitting that we update our company logo representing our ever-growing high-performance company fueled by a “We Want to Spoil You!” philosophy. The new logo displays the interaction of our commitment to delivering superior hearing care solutions and exceptional personal care to our clients.

With this new identity comes the responsibility of promoting Audina in a manner that is both consistent and coordinated. It is imperative that the graphic standards set forth in this manual are followed precisely. This Graphic Standards Manual is specifically designed to coordinate our communication practices. It sets the graphic communications standards that will give Audina a consistent visual identity in all its public applications including:

- Stationary
- Product brochures
- Web site
- Trade Show Exhibits
- Product Inserts
- Signage
- Advertising
- Catalog
- Workshops/Seminars
- Direct Mail

By standardizing our graphics, we support our primary communication objective, establishing Audina Hearing Instruments, Inc. as an industry leader of the highest quality with legendary customer service.

This guide will make it easy to implement effective communications. The strength of Audina Hearing Instruments, Inc. international communications and its identity lies in the effective, ongoing usage of this manual.

-Diana McGinty
Director of Marketing

Please direct any questions regarding the usage of Audina’s logo identities to:

Logo Rationale:

Effective October 1, 2010, Audina® Hearing Instruments, Inc. will use only the newly redesigned company logo that was approved on August 1, 2010 by Marc McLarnon, Frank Robilotta and Paul Bryant. It is incorrect to use the previous designs on any internal or external media.

The goal that drove the design development of the new Audina logo was the need to update the appearance of the existing logo. We realized there was great value in the recognition of the font style used since the company was established. However, it was time to give our signature a face-lift. We wanted to create a mark that would be graphically unique to the organization and effectively communicate the heritage and value it represents within the hearing industry around the world.

Our new logo is created using a touch of our signature “Pink” in the interactive swirls of sound waves representing the dedication of our employees to deliver superior hearing care solutions and exceptional personal care to each of our clients. It displays the renowned technology and exceptional client service that is a daily priority at Audina. The font style used for the company name has been updated with a slight difference from the past logos. Again, we recognized the value of the font style used over time and wanted to give it an update but not a complete overhaul.

The defining characteristics of the new logo are: technology, user-friendly and personal.

In selecting the font style for “Hearing Instruments, Inc.” we wanted to use a style that was contemporary and strong. By using all capitalized letters we display the strength of the company, both as a stable organization and as a leader in the industry. The placement of “Hearing Instruments, Inc.” creates the foundation for the company name - “Audina”.

With the combination of the swirl icon and the updated letterforms, the total unit becomes a unique, very functional identifier for Audina Hearing Instruments, Inc.

Colors:

The Audina Hearing Instruments, Inc. logotype when printed must be in either it's two-color - blue (Pantone 540C) and pink (Pantone 204C – on dark backgrounds and Pantone 212U on white/light backgrounds); or the one-color version available in black or white.

The "official" logo is the two-color Blue/Pink version.

Two-color version:

Audina®
HEARING INSTRUMENTS, INC

One-color black version:

Audina®
HEARING INSTRUMENTS, INC

Typography:

The preferred typeface for use in business communication pieces (letterhead, envelops, and thank-you notes) in conjunction with the Audina Logo is Arial, font size 11 pt. The Arial font may be used in its various forms (regular, *italic*, **bold**, condensed or extended).

Logo Usages:

Positioning:
The minimum clear space surrounding the Audina logo must always be at least the height of the "double swoosh" icon before the word "Audina". This clear space must be allowed on all four sides of the logotype.

The Audina Logo is never to be used smaller than ½" in any published piece.

Proportions:
The Audina logo is always to be used in its original, as designed proportions. Never condense, expand or distort the logo beyond its original proportions.

In addition, the typeface that comprises the letters "Audina" within the logo is a custom designed typeface. As a result, a "similar" typeface cannot be substituted for the letters "Audina" within the logo. This rule also applies to the words "Hearing Instruments, Inc." Always use the complete logo as supplied.

Graphic Elements:
Audina's identity and effectiveness of its communications are dependent upon the consistent usage of the logotype.

- The Audina logo is never to be used without the "swoosh"
- The Audina logo and the "swoosh" have a fixed relationship and cannot be altered.

The Audina logotype and "swoosh" icon when printed must be in approved colors listed above.

Backgrounds:
The Audina logo is always to be used on a background that will not impede its readability.

- The logo in its positive form should not be used on color fields darker than 30% value of black.
- The logo in its reverse form should be used only on color fields darker than 30% value of black.
- The logo should never be used on a "busy" pattern.

Copyrights and Trademarks:

The word “Audina” is protected as a registered trademark and must always carry the ® the first time the name appears in any media piece or document. After displaying the ® the first time it is not necessary to repeat it again in the same document or media piece.

Many of Audina product names are trademarked and must carry the ™ or the ® as displayed in the logo of these product names. If using the product name in text, the ™ or ® must be displayed immediately after the last letter of the product name – the first time the product name appears in the document or media piece. After displaying the mark the first time it is not necessary to repeat it again in the same document or media piece.

Audina Product Names that are trademarked:

Cue®	ezHEAR®	flx®	InstaFIT®
INTELLIO®	INTUITION®	nVe®	OPTI-TRIM®
SoftTouch®	SPARO®		

Individual Product Logo Standards:

All Audina product logos must follow the same guidelines set for the Audina company logo.

Cue®

The Cue® logo uses a four color process: C=35 M=100 Y=35 K=10 (Pantone color is 216) The font is Book Antiqua font style for the “C” and Calibri font style for the “ue”. If you are using the word Cue® in text – the word needs to appear in all lower case with the “®” immediately following the “e” without any space between the “e” and the mark. You may use in the same point size as other text in the document. (i.e. If you are using Arial, font size point 11 – you may use the Book Antiqua and Calibri font in point size 11.)

The *flx*® logo uses a four color process: C=60, M=10, Y=100, K=0 (PMS 376C)
The font is “Sabon” style for the “l” and “x”, while the “f” is an illustration. If you are using the word *flx* ® in text – the word needs to appear in all lower case with the “®” immediately following the “x” without any space between the “x” and the mark. You may use Sabon font style in the same point size as other text in the document. (i.e. If you are using Arial, font size point 11 – you may use the Sabon font in point size 11.)

The InstaFIT® logo is in standard black. The font is Myriad Pro with FIT being semi-bold and the other letters in regular font style. If you are using the word InstaFIT® in text, the word needs to appear with a capital “I”, then lower case for the “nsta” with the letters “FIT” in all caps. The ® needs to immediately follow the “T” without any spacing.

The INTELLIO® logo uses a four color process: C=45, M=40, Y=80, K=0
The font is a modified “Muskrat” font style. If you are using the word INTELLIO® in text – the word needs to appear in all caps with the “®” immediately following the “O” without any space between the “O” and the mark. You may use Muskrat font style in the same point size as other text in the document. (i.e. If you are using Arial, font size point 11 – you may use the Muskrat font in point size 11.)

INTUITION® 2ER
INTUITION® 2FC
INTUITION® 2

The INTUITION family of logos in color use Pantone 443
The font is “HandelGothic-Bold” font style. If you are using the word INTUITION® 12AD, INTUITION® 12, INTUITION® 4AD, INTUITION® 4+, INTUITION® 2ER, INTUITION® 2FC or INTUITION® 2 in text – the word needs to appear in all caps with the “®” immediately following the “N” without any space between the “N” and the mark. The ® mark is placed before the product number with a space following the ®. You may use HandelGothic-Bold font style in same point size as the other text in the document. (i.e. if you are using Arial, font size point 11 – you may use the “HandleGothic-Bold” font in point size 11.)

nVē™ AD
nVē™ 4

The nVē™ AD and the nVē™ 4 logo color is C=0, M=10, Y=70, K=0. The font style is Phaeton. If you are using the word “nVē™” in text – the word needs to appear with the “¯” over the “e” of nVē™. The ™ needs to be placed immediately following the “ē” with a space following before the AD or 4. When using the product name, nVē in text – you may use Phaeton font style in the same point size as the other text in the document, using a lower case “n” and a capital “V” with a “ē” from the “insert symbol” section of your software.

OPTI-TRIM®

The OPTI-TRIM® logo is (OPTI) black and (TRIM) Pantone 512
The font for the “OPTI” portion is “Warnock Pro” font style and the font for the “TRIM” portion is “Tahoma”. If you are using the word “OPTI-TRIM”in text – the word needs to appear in all caps with the ® immediately following the M. You may use both font styles in same point size as the other text in the document.

SIMPLEX

The SIMPLEX logo is Pantone 285
The font is “Book Antiqua” font style. If you are using the word SIMPLEX in text – the word needs to appear in all caps. You may use “Book Antiqua” font style in the same point size as the other text in the document. (i.e. if you are using Arial, font size point 11 – you may use the “Book Antiqua” font in point size 11.)

SPARO® 12
SPARO® AD
SPARO®
SPARO® 2

The SPARO® logo in color uses a four color process: C=43, M= 28, Y=0, K=0
The font is a modified “Baskerville Italic” font style. If you are using the word SPARO® in text – the word needs to appear in all caps with the “®” immediately following the “O” without any space between the “O” and the mark. You may use Baskerville Italic font style in the same point size as other text in the document. (i.e. If you are using Arial, font size point 11 – you may use the Baskerville Italic font in point size 11.)

SUPER 60

The SUPER 60 logo is Pantone 540
The font is “Black Wolf” font style. If you are using the word SUPER 60 in text – the word needs to appear in all caps. You may use “Black Wolf” font style in the same point size as the other text in the document. (i.e. if you are using Arial, font size point 11 – you may use the “Black Wolf” font in point size 11.)

Our Behind-the-Ear (BTE) line of products uses “Black Wolf” font style.

Rights of Use:

Audina Company and Product Logos:
When a client or distributor requests to use any of the Audina logos (Audina corporate logo and/or Audina product name logos), they agree to the above standards outlined in this document and agree to send a proof of the usage before the media piece goes to print. The Audina product logos can not be used without the Audina corporate logo in the same media piece. Please allow a minimum of 2 business days for Audina Marketing Director's review of piece.

Licensed Product Photos:
Clients may request permission to use Audina licensed product photos; these photos will be shared as high-res .jpg files. When an Audina licensed photo is used, the Audina corporate logo must be displayed in the same media piece to identify the products as Audina Hearing Instruments. In addition to the Audina company logo, the Audina product name logo may also be used (i.e. INTUITION® 12AD). Again, the media piece must be reviewed by the Audina Marketing Director prior to going to press. Please allow a minimum of 2 business days for Audina's review and approval.
