We are pleased to introduce the brand identity for Auditiva, Inc. As we continue to grow as a “world-wide” organization, it is fitting that we maintain our company logo representing our ever-growing high-performance company fueled by a “We Want to Spoil You!” philosophy. The logo displays the interaction of our commitment to delivering superior hearing care solutions and exceptional personal care to our clients.

With this identity comes the responsibility of promoting Auditiva in a manner that is both consistent and coordinated. It is imperative that the graphic standards set forth in this manual are followed precisely. This Graphic Standards Manual is specifically designed to coordinate our communication practices. It sets the graphic communications standards that give Auditiva a consistent visual identity in all its public applications including:

- Stationary
- Product brochures
- Web site
- Trade Show Exhibits
- Product Inserts
- Signage
- Advertising
- Catalog
- Workshops/Seminars
- Direct Mail

By standardizing our graphics, we support our primary communication objective, establishing Auditiva, Inc. as an industry leader of the highest quality with legendary customer service.

This guide will make it easy to implement effective communications. The strength of Auditiva, Inc. international communications and its identity lies in the effective ongoing usage of this manual.

Logo Rationale

Effective October 1, 2010, Auditiva, Inc. has been using only the following company logo.

Auditiva

It is incorrect to use any previous designs on any internal or external media.

It reates a mark that is graphically unique to the organization and effectively communicates the heritage and value it represents within the hearing industry around the world.

Our logo is created using a touch of our signature “Pink” in the interactive swirls of sound waves representing the dedication of our employees to deliver superior hearing care solutions and exceptional personal care to each of our clients. It displays the renowned technology and exceptional client service that is a daily priority at Auditiva. The font style used for the company name has been updated with a slight difference from the past logos. We recognized the value of the font style used over time and wanted to give it an update but not a complete overhaul.

The defining characteristics of the logo are: technology, user-friendly and personal.

With the combination of the swirl icon and the updated letterforms, the total unit becomes a unique, very functional identifier for Auditiva, Inc.

Colors

The Auditiva, Inc. logotype when printed must be in green on white/light backgrounds); or the one-color version available in black or white.

The “official” logo is the green version.

Color version:

Auditiva®

One-color black version:

Auditiva®

Typography

The preferred typeface for use in business communication pieces (letterhead, envelops, and thank-you notes) in conjunction with the Auditiva Logo is Arial, font size 11 pt. The Arial font may be used in its various forms (regular, *italic*, **bold**, condensed or extended).

Logo Usages

Positioning:
The minimum clear space surrounding the Auditiva logo must always be at least the height of the initial “A” letter in the word “Auditiva”. This clear space must be allowed on all four sides of the logotype.

The Auditiva Logo is never to be used smaller than ½” in any published piece.

Proportions:
The Auditiva logo is always to be used in its original, as designed proportions. Never condense, expand or distort the logo beyond its original proportions.

In addition, the typeface that comprises the letters “Auditiva” within the logo is a custom designed typeface. As a result, a “similar” typeface cannot be substituted for the letters “Auditiva” within the logo. Always use the complete logo as supplied.

Graphic Elements:
Auditiva’s identity and effectiveness of its communications are dependent upon the consistent usage of the logotype.

- The Auditiva logo is never to be used without the “sparkle”.
- The Auditiva logo and the “sparkle” have a fixed relationship and cannot be altered.

The Auditiva logotype and “sparkle” icon when printed must be in approved colors listed above.

Backgrounds:
The Auditiva logo is always to be used on a background that will not impede its readability.

- The logo in its positive form should not be used on color fields darker than 30% value of black.
- The logo in its reverse form should be used only on color fields darker than 30% value of black.
- The logo should never be used on a “busy” pattern.

Copyrights and Trademarks

The word “Auditiva” is protected as a registered trademark and must always carry the ® the first time the name appears in any media piece or document. After displaying the ® the first time it is not necessary to repeat it again in the same document or media piece.

Many of Auditiva product names are trademarked and must carry the ™ or the ® as displayed in the logo of these product names. If using the product name in text, the ™ or ® must be displayed immediately after the last letter of the product name – the first time the product name appears in the document or media piece. After displaying the mark the first time it is not necessary to repeat it again in the same document or media piece.

Auditiva Product Names that are registered or trademarked:

- Arco®
- Zirc®
- ezHEAR®
- Veloz®
- InstaFIT®
- INTUIR®
- FINO™
- BOOST®
- OPTI-2®
- SoftTouch®

Individual Product Logo Standards

All Auditiva product logos must follow the same guidelines set for the Auditiva company logo.

The Arco® logo uses mainly one color, and a gradient of two colors on the “O” at the end. The main color and gradient is reversed for the other product.

The Arco uses C=99, M=99, Y=30, K=53 mostly, and the gradient reaches color C=69, M=100, Y=26 K=17.

The Zirc® logo uses a four color process: C=19 M=59 Y=100 K=4.

Zirc

The Veloz® logo uses a four color process: C=49, M=38, Y=75, K=14.

Veloz

The InstaFIT® logo is in standard black. The font is Myriad Pro with FIT being semi-bold and the other letters in regular font style. If you are using the word InstaFIT® in text, the word needs to appear with a capital “I”, then lower case for the “nsta” with the letters “FIT” in all caps. The ® needs to immediately follow the “T” without any spacing.

InstaFIT

The INTUIR family of logos in color use Pantone 443 The font is “HandelGothic-Bold” font style. If you are using the word INTUIR® 12AD, INTUIR® 12, INTUIR® 4AD, INTUIR® 4+, INTUIR® 2ER, INTUIR® 2FC or INTUIR® 2 in text – the word needs to appear in all caps with the “®” immediately following the “N” without any space between the “N” and the mark. The ® mark is placed before the product number with a space following the ®. You may use HandelGothic-Bold font style in same point size as the other text in the document. (i.e. if you are using Arial, font size point 11 – you may use the “HandleGothic-Bold” font in point size 11.)

Intuir

The FINO (2, 4 and 12) logo color is C=63, M=28, Y=3, K=0.

Fino

The OPTI-2® logo color is C=77, M=10, Y=35, K=0.

Opti 2

The BOOST logo uses color red (C=0, M=99, Y=100, K=0). The font is “Ethnocentric.” The text is in all caps with the “®” immediately following the “T” without any space between the “T” and the mark.

The LIGERO logo color is C=30, M=60, Y=0, K=0.

The SUPER 60 logo is Pantone 540 The font is “Black Wolf” font style. If you are using the word SUPER 60 in text – the word needs to appear in all caps. You may use “Black Wolf” font style in the same point size as the other text in the document. (i.e. if you are using Arial, font size point 11 – you may use the “Black Wolf” font in point size 11.) Our Behind-the-Ear (BTE) line of products uses “Black Wolf” font style.

Rights of Use

Auditiva Company and Product Logos:
When a client or distributor requests to use any of the Auditiva logos (Auditiva corporate logo and/or Auditiva product name logos), they agree to the above standards outlined in this document and agree to send a proof of the usage before the media piece goes to print. The Auditiva product logos can not be used without the Auditiva corporate logo in the same media piece. Please allow a minimum of 2 business days for Auditiva Marketing Director's review of piece.

Licensed Product Photos:
Clients may request permission to use Auditiva licensed product photos; these photos will be shared as high-res .jpg files. When an Auditiva licensed photo is used, the Auditiva corporate logo must be displayed in the same media piece to identify the products as Auditiva. In addition to the Auditiva company logo, the Auditiva product name logo may also be used (i.e. INTUIR® 12AD). Again, the media piece must be reviewed by the Auditiva Marketing Director prior to going to press. Please allow a minimum of 2 business days for Auditiva's review and approval.
